Objectives

E-TECHSAT LTD Partnership with EET is Europe's leading distributor within: Parts & Accessories, Storage, Network, Consumer Electronics, Surveillance, Professional AV, as well as Point of Sale.

E-TECHSAT LTD Partnership with EET complies with the legislation when handling personal data and we make sure to have the highest possible safety procedures in order to respond to threats and attacks. We protect the customers' data to earn the customers' trust – whether handling personal data or other information.

Below you can read about how

E-TECHSAT LTD Partnership with EET take on the responsibility of protecting customer data and how the customers can exercise their rights.

Background

E-TECHSAT LTD Partnership with EET handles the customers' personal data, defined by any information about a physical identified or identifiable person. Every customer might have one or more physical persons affiliated. The data encompasses the customer's company name, company address, email address, telephone number, customer number, order number, IP address, cookie number, information regarding the physical persons affiliated with the customer, use of our website, etc.

E-TECHSAT LTD Partnership with EET has professional companies as customers and EET's handling of data is therefore primarily of legal persons. EET do, however, handle data regarding physical persons, in case there are any affiliated to the legal persons. The term "customer" in this policy therefore also covers the physical persons who own the companies or are employed in the companies, that EET has as customers. Finally, the term also covers visitors of EET's website who are not logged in, and where EET, as a result, cannot determine whether it is a customer, a potential customer or another stakeholder.

Contact

E-TECHSAT LTD Partnership with EET Group, Bregnerødvej 133D, 1 3460 Birkerød Denmark, is the information systems manager and accountable for the handling of personal data.

If you have any questions regarding the handling of your data (including personal data), please send an email to kundeservice@eeteuroparts.dk

Principles

E-TECHSAT LTD Partnership with EET handles personal data in accordance with the principles in the General Data Protection Regulation (GDPR) and the Data Protection Legislation.

E-TECHSAT LTD Partnership with EET handles personal data lawfully, fairly and transparently. For every handling, a purpose is established. We do not handle more data than necessary to fulfil the purpose. We do what we can to ensure that the information is correct. We do not store the data for a longer time than necessary. We protect data, systems and processes with contemporary safety technologies. We can document our actions.

Purpose

E-TECHSAT LTD Partnership with EET has established a list of concrete purposes for the handling of data, for the individual IT systems and the personal data registered herein. Generally, EET handles the customers' personal data with the following purposes:

- Registration of potential customers
- Creation and approval of customers
- Servicing of customers to be able to deliver a service or accomplish a sale
- Personalized services, including development and promotion of products and services
- Registration of customers with regards to comply with the legislation.

Declaration of Consent

In several cases,

E-TECHSAT LTD Partnership with EET will ask the physical customers for permission to handle their personal data, before the handling takes place. To ask for permission is also called requesting a declaration of consent. You can, at any time, withdraw your consent, and EET will then terminate the handling of data.

Rights

E-TECHSAT LTD Partnership with EET's customers have a list of rights regarding the handling of their personal data according to the GDPR. These rights mean, i.a., that the customers can be informed of what type of personal data EET possesses and in some cases have them deleted.

The customers can apply for access. This means that the customers can ask EET what personal data EET handles and with what purposes, etc.

The customers can request to have personal data amended, which they do not find correct. The customers' administrators can amend the rights granted to the customers' employees themselves.

The customers can request to have personal data deleted, which they find that EET should or may not have registered.

The customers can request that the handling of personal data is limited. This means that the data is not deleted, but it is specified that they may not be handled and the access to them is restricted.

The customers can take exception to a specific handling taken place. This means that the data may potentially still be applied for other legal purposes. The objection may have a temporary character in relation to a concrete purpose and i.a. be defined by the employee's immediate situation.

The customers have, under certain limited circumstances, the opportunity to request their own personal data handed over.

The customers have the right not to be profiled, unless it is crucial to be able to create a contract.

E-TECHSAT LTD Partnership with EET finds it crucial that a profiling has been made to be able to make an assessment of creditworthiness, when a contract with credit is requested.

On the contrary, it is not crucial for the contract to profile the customers' use of the website, which is why a profiling is only made with a consent in this case. See the section "Declaration of consent".

E-TECHSAT LTD Partnership with EET will always meet a request for access.

E-TECHSAT LTD Partnership with EET will always consider the fairness of the execution of the additional rights and perform a specific evaluation of whether a submitted access request should be met. The customers may always file a complaint against a decision made by EET. See the section "Complaints".

Safety

E-TECHSAT LTD Partnership with EET has incorporated any suitable technical and organizational precautions, in order to protect personal data against unintended loss and any illegal handling. This means, that EET explores every system and data, and take the threats that might appear into consideration. The safety encompasses both organizational initiatives such as policies and procedures, and a list of technical initiatives.

To protect our infrastructure we will not go into details with what specific initiatives

E-TECHSAT LTD Partnership with EET have instituted. However, we can mention that the initiatives include policies, procedures, organisation, employee safety, administration of suppliers, development, assets, admissions and operation settlement, management of threats and safety matters, compliance to legislation, etc.

If you, as a customer, have a specific question regarding our safety procedures, you are always welcome to contact us. See our contact information above.

Violation of the Personal Data Privacy

If a violation of personal data privacy, which involves

E-TECHSAT LTD Partnership with EET's customers, occur, and the violation in question is estimated to constitute a high risk for the customers, EET will inform the Data Protection Agency as soon as possible and will together with the agency consider to which extent a wide communication should take place.

Data receivers and transmission

E-TECHSAT LTD Partnership with EET handles most personal data in private data centers. However, EET deploys certain in-house systems that handle data via Cloud-based systems. For every system, the handling of personal data has been outlined, here-under if any assignment or transfer takes place, and if so, to which recipients.

Span of treatment

E-TECHSAT LTD Partnership with EET has, as far as possible, determined a span of treatment for the handling of activities in the specific systems. Generally,

E-TECHSAT LTD Partnership with EET only store personal data for as long as it is necessary in regards to the purpose of the personal data handling.

Changes to

E-TECHSAT LTD Partnership with EET's privacy notice

E-TECHSAT LTD Partnership with EET can, at any given time and without notice, change this privacy notice with immediate effect. A notice will appear when logging into our website, or directly via email if any major changes take place. EET's new privacy notice will be applicable going forward.

Complaints

The customers can complain about

E-TECHSAT LTD Partnership with EET's decisions here: kundeservice@eeteuroparts.dk

The customers may also, at any given time, submit a question or complaint against

E-TECHSAT LTD Partnership with EET's handling of customers' data to the Data Protection Agency. The customers may also, at any time, bring a personal data handling case to the court of law.
